

Designer Graphix

A Brief Profile

Introduction

Established in 1995, Designer Graphix is a sole proprietorship company that has remained successfully established for over twelve years now.

We provide very high quality technical Corporate Training, second to none. Briefly, our core expertise areas are in the domains of LINUX™ and UNIX™ Operating Systems, systems programming, internals and device drivers on those platforms, Embedded LINUX™ and X Window & MOTIF application development on the UNIX™/LINUX™ platforms.

More specifically, we provide the following world-class instructor-led Corporate Trainings:

<i>Title</i>	<i>Duration</i>	<i>Course Code</i>	<i>Prerequisites*</i>
<i>Application Domain</i>			
UNIX™ / LINUX™ Fundamentals and Shell Scripting for Software Developers	3 days	DG-U0 / DG-L0	None
Advanced UNIX™ / LINUX™ Application and Systems Programming	5 days	DG-U2 / DG-L2	DG-U0 / DG-L0; 'C' programming skills
X Window System & MOTIF Programming for Software Developers	5 days	DG-X1	DG-U0 / DG-L0; 'C' programming skills
<i>Systems Domain</i>			
LINUX™ Internals and Device Drivers for Software Developers	6 days	DG-L1	DG-U2 / DG-L2; 'C' programming skills
Embedded LINUX™ Workshop for Software Developers	5 days	DG-L3	DG-L1; 'C' programming skills
LINUX™ Debugging Techniques – Userspace and Kernel	4-5 days	DG-L4	DG-L1; 'C' programming skills

* Either the participant has attended the Training Programme(s) mentioned, or has the equivalent knowledge / experience.

Several of the above trainings are considered advanced and are targeted at experienced engineers who (in many cases) are actively involved in deploying real-world solutions.

The customer feedback ratings received on completion of training programmes is invariably in the very top bracket.

Future Directions

Regarding future directions, Designer Graphix intends to take on and demonstrate proven expertise on Embedded / LINUX projects and consulting. Prototype projects in this domain have already been successfully undertaken and some are under active development.

The expertise gained on real-world projects will be put to effective use in enhancing the value of Corporate Training programmes, and vice-versa.

Clientèle

Our prestigious clientèle include:

Accenture India
Altair Engineering
Deutsche Software Limited
Digital GlobalSoft
GE Global eXchange Services
Hewlett Packard India
IBM India Pvt Limited
Indian Institute of Science (IISc)
Intel Technology India Pvt Limited
Lucent Technologies Ltd.
MindTeck (India) Limited
Mistral Software
Motorola (India) Electronics Limited
Novell Software
Oracle India Pvt Ltd
Patni Computer Systems Ltd
Robert Bosch
SG Software Asia Pvt. Ltd. Siemens Information Systems Limited
Siemens Public Communication Networks Limited
System Consultant
Texas Instruments
Tory Harris Ltd
Toshiba India
Wipro

The company is led by Kaiwan N Billimoria, an IT engineer with over sixteen years of hard-core experience in the IT software industry (profile available on request). Kindly refer our website for additional details.

We would indeed be delighted to serve you. Please contact us for any additional information or clarifications.
